

The Board of Jewish Education of Greater New York has a mission to motivate, strengthen and increase Jewish identity and commitment to the Jewish people through educational services and acculturation programs in New York. Founded in 1910, BJE serves the entire metropolitan area, Nassau/Queens and Westchester County, and every denomination. We provide comprehensive services to more than 700 Jewish day, congregational and nursery schools, serving 176,000 youngsters, as well as group leaders from community centers and camps.

Mr. Hirsch's Assessment battery is clearly one of the most exciting and innovative developments in psychometrics that I have been exposed to in my entire professional career. This is THE trail-blazing product in the field of assessment. From the moment the BJE team was exposed to its unprecedented potential and uniqueness, our focus became its application for education.

I must also mention that one rarely meets such a brilliant individual who truly demonstrates an understanding of human potential and its measurement as Michael Hirsch. In addition, he's simply a wonderful person with whom to be associated.

Sincerely,

Rabbi Dr. Martin Schloss  
Board of Jewish Education of Greater New York
